The words "objective", "likely", "generally", "believe", "ensure", "intends", "endeavours", "expects", "enable" and "continue" and other expressions of similar import, or negative variations thereof, and similar expressions of future or conditional verbs such as "will", "may", "shall", "can", "could", "often" and "would" are predictions of or indicate future events or prospects or identify forward-looking information. Forward-looking information in this Annual Report include among others, statements with respect to the company's objective of generating cash dividends to fund fixed preferential cumulative quarterly dividends for the holders of its preferred shares by investing in Class A Limited Voting Shares ("Brookfield Shares") of Brookfield Asset Management Inc. ("Brookfield") and enabling the holders of its capital shares to participate in any capital appreciation of the Brookfield Shares, fluctuations in the market value of the company's units, fluctuations in exchange rates, the company's international financial reporting standards ("IFRS") conversion plan, the impact of the adoption of IFRS on the company's reported financial position and results of operations, future classification of the company's investments, redemption and retractions of the company's preferred shares and capital shares, the company's future qualification as a mutual fund corporation under the Income Tax Act (Canada), variations in the value of the company's investment portfolio, potential exposure to liquidity risk to fund dividend obligations, the company's ability to fund retraction obligations and obligations of the company under potential indemnification and guarantee agreements.

Although the company believes that the anticipated future results or achievements expressed or implied by the forward-looking information and statements are based upon reasonable assumptions and expectations, the reader should not place undue reliance on the forward looking statements and information because they involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of the company to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking information and statements.

Factors that could cause actual results to differ materially from those contemplated or implied by the forward-looking information include interest and exchange rates, availability of equity and debt financing and other risks detailed from time-to-time in the company's continuous disclosure documents including under the heading "Investment Considerations and Risk Factors" in the company's most recent Annual Information Form available at www.sedar.com. We caution that the foregoing list of important factors that affect future results is not exhaustive. When relying on our forward-looking information to make decisions with respect to the company, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Except as required by law, in the company undertakes no obligation to publicly update or revise any forward-looking information or statements, whether written or oral, that may be as a result of new information, future events or otherwise.

Management's Report on Fund Performance

The following is a report on the performance of BAM Split Corp. (the "company") and contains financial highlights but does not contain the complete financial statements of the company. This report follows the disclosure obligations under National Instrument 81-106 Investment Fund Continuous Disclosure ("NI-81-106" or the "Instrument") and should be read in conjunction with the financial statements and notes thereto for the year ended September 30, 2009.

You can receive a copy of the company's annual financial statements at your request and at no cost by calling (416) 363-9491, by writing to us at 181 Bay Street, Brookfield Place, Suite 300, P.O. Box 762, Toronto, Ontario M5J 2T3 or by visiting SEDAR at www.sedar.com. Security holders may also contact us using one of these methods to request a copy of the company's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure when that information becomes available.

INVESTMENT OBJECTIVE AND STRATEGIES

The company's objective is to invest in Class A Limited Voting Shares ("Brookfield Shares") of Brookfield Asset Management Inc. ("Brookfield") that will generate cash dividends to fund fixed preferential cumulative quarterly dividends for the holders of the company's preferred shares and enable the holders of the company's capital shares to participate in any capital appreciation in the Brookfield Shares. The company's capital shares and preferred shares are also referred to collectively as units, with each unit consisting of one capital share and one preferred share ("Unit").

RISKS

The risk factors relating to an investment in the company include those disclosed below. A complete list of the risk factors relating to an investment in the company is disclosed in the company's most recent Annual Information Form available at www.sedar.com or by contacting the company by the means described above.

Interest Rate Fluctuations

The market value of a Unit may, at any given time, be affected by the level of interest rates prevailing at such time. An increase (decrease) in interest rates will, on its own, likely reduce (increase) the value of a preferred share, given that the dividends on such preferred shares are fixed rate.

Fluctuations in Value of Brookfield Shares

The value of a unit will vary according to the value of the Brookfield Shares. The value of the investment may be influenced by factors not within the control of the company, including: financial performance of the Brookfield Shares which may result in a decline in value of the investment portfolio and/or in dividend income from the investment, interest rates, general economic conditions, availability of equity and debt financing and financial market conditions.

Foreign Currency Exchange Fluctuations

Brookfield's functional currency is the United States dollar and it declares dividends in that currency. Accordingly, changes in the exchange rate between the Canadian and United States currencies may impact the value of the company's investment portfolio and cashflows relative to its financial obligations which are denominated principally in Canadian currency.

RESULTS OF OPERATIONS

Total assets at September 30, 2009 were \$1,295.5 million, compared to \$1,324.6 million at September 30, 2008. The decrease in the total assets reflects a decrease in the quoted market value of the investment portfolio of \$171.1 million partially offset by the acquisition of an additional 7.0 million Brookfield Shares. The fair value of the company's investment portfolio at September 30, 2009 was \$1,295.5 million (September 30, 2008 – \$1,323.0 million).

On July 9, 2009, BAM Split issued \$125.0 million Class AA Series IV Preferred Shares and used the proceeds to fund the early redemption of the \$125.0 million Class A Preferred Shares at a redemption price of \$25.25 per share. The Class A Preferred Shares were otherwise scheduled to be redeemed no later than September 30, 2010. Accordingly, this transaction successfully extended the maturity profile of the company's financial obligations. The Class AA Series IV Preferred Shares have an annual yield of 7.25% and mature on July, 9, 2014.

As at September 30, 2009, the net asset value of the company was \$933.9 million, an increase of 9.5% from the value of \$852.5 million at September 30, 2008. On a per unit basis, net asset value was \$88.05 at September 30, 2009 compared to \$69.59 as at September 30, 2008 representing an increase of 26.5%. The increase in net asset value is a result of the acquisition of 7.0 million Brookfield Shares for consideration of capital shares and the conversion of preferred shares, which were held by BAM Investments Corp., the company's parent company, into capital shares. These transactions were partially offset by a reduction in the quoted market value of the Brookfield Shares.

The company generated income available for distribution for the year ended September 30, 2009 of \$26.0 million compared to \$19.4 million in the prior year as a result of an increase in both the number of Brookfield Shares held and an increase in Brookfield's dividends paid combined with a stronger U.S. dollar relative to the Canadian dollar.

During the year, the company paid dividends of \$19.9 million and \$9.8 million to the holders of preferred shares and capital shares, respectively, compared to \$20.5 million and \$37.1 million for the same period in the prior year. Capital share dividends in the prior year included the distribution of the special dividend of Brookfield Infrastructure Partners limited partnership units received on the Brookfield Shares in that year.

RELATED PARTY TRANSACTIONS

The company's operations are managed by Brookfield, which is entitled to a fee of up to 10% of ordinary expenses of the company. For the year ended September 30, 2009, Brookfield charged a fee of \$20,000 (2008 – \$20,000).

In connection with the refinancing of the Class A Preferred Shares, BAM Investments Corp. and the company entered into two ancillary transactions. On July 28, 2009 BAM Investments Corp. converted all of its publicly and privately held preferred shares into capital shares of the company. The transaction was recorded at the carrying value of the preferred shares.

Also on July 28, 2009, the company issued \$143.7 million of capital shares and used the proceeds to acquire 7.0 million Brookfield Shares from BAM Investments Corp. The transaction was measured at the fair value of the Brookfield Shares acquired, which was equivalent to their carrying value.

FINANCIAL HIGHLIGHTS

The following table shows selected key financial information about the company and is intended to facilitate an understanding of the company's financial performance since inception and is presented in accordance with NI-81-106. This information is derived from the company's audited financial statements.

Net asset value per unit, end of year	\$ 88.05	\$ 69.59	\$ 97.74	\$ 137.04	\$ 100.11

¹ Antidilution occurred as a result of the consolidation of capital shares following the conversion of preferred shares held by BAM Investments Corp. into capital shares and the purchase of 7.0 million Brookfield Shares for consideration of capital shares issued.

² Dilution occurred as a result of the subdivision of capital shares following the retraction/redemption of preferred shares during 2007 and 2008 so that the number of capital shares issued and outstanding was equal to the number of preferred shares issued and outstanding as required by the articles of the company. This resulted in the dilution to holders of the existing preferred shares.

³ Net asset value and distributions are based on the actual number of units outstanding over the period. The (decrease) increase from operations is based on the weighted average number of units outstanding over the period.

FUTURE CHANGES IN ACCOUNTING POLICIES

International Financial Reporting Standards

The AcSB confirmed in February 2008 that International Financial Reporting Standards ("IFRS") will replace Canadian GAAP for publicly accountable enterprises for financial periods beginning on and after January 1, 2011. The company is in the process of developing and implementing an IFRS conversion plan that will address changes in accounting policy, the restatement of comparative periods, organizational and internal control, the modification of existing systems and the training and awareness of staff, in addition to other related business matters. Overall responsibility for the implementation and success of the company's conversion plan rests with the company's senior financial management who report to and are overseen by the company's Audit Committee.

IFRS are premised on a conceptual framework similar to Canadian GAAP, however, significant differences exist in certain matters of recognition, measurement and disclosure. The company's activities are generally limited to the ownership of investments, and because of the similarities between Canadian GAAP and IFRS, management does not believe the adoption of IFRS in this regard will result in material changes to the reported financial position and results of operations of the company. A detailed analysis of the differences between IFRS and the company's current accounting policies under Canadian GAAP is currently in process.

Management's Responsibility for the Financial Statements

The accompanying financial statements and other financial information in this Annual Report have been prepared by the company's management who is responsible for their integrity, consistency, objectivity and reliability. To fulfill this responsibility, the company maintains policies, procedures and systems of internal control to ensure that its reporting practices and accounting and administrative procedures are appropriate to provide a high degree of assurance that relevant and reliable financial information is produced and assets are safeguarded. These controls include the careful selection and training of employees, the establishment of well-defined areas of responsibility and accountability for performance and the communication of policies and code of conduct throughout the company. These financial statements have been prepared in conformity with Canadian generally accepted accounting principles, and where appropriate, reflect estimates based on management's judgment. The financial information presented throughout this Annual Report is generally consistent with the information contained in the accompanying financial statements. Deloitte & Touche LLP, the independent auditors appointed by the shareholders, have examined the financial statements set out on pages 7 through 15 in accordance with auditing standards generally accepted in Canada to enable them to express to the shareholders their opinion on the financial statements. Their report is set out below. The financial statements have been further reviewed and approved by the Board of Directors acting through its Audit Committee, which is comprised of directors who are not officers or employees of the company. The Audit Committee, which meets with the auditors and management to review the activities of each and reports to the Board of Directors, oversees management's responsibilities for the financial reporting and internal control systems. The auditors have full and direct access to, and meet periodically with, the Audit Committee both with and without management present to discuss their audit and related findings.

Auditors' Report

To the Shareholders of BAM Split Corp.

We have audited the statements of net assets of BAM Split Corp. as at September 30, 2009 and 2008, and the statements of investment operations and retained earnings, changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the company as at September 30, 2009 and 2008 and the results of its operations, changes in its net assets and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

Notes to the Financial Statements

1. BASIS OF PRESENTATION

The company's portfolio of Class A Limited Voting Shares ("Brookfield Shares" or the "portfolio") of Brookfield Asset Management Inc. ("Brookfield") is carried at fair market value, which is the bid price on a recognized exchange, with any adjustment required being recorded as an unrealized appreciation (depreciation) on the Statements of Investment Operations and Retained Earnings.

Cash and cash equivalents includes any instruments with a maturity of less than 90 days.

Dividend income is recorded on the ex-dividend date.

Certain comparative figures have been reclassified to conform with the current year's presentation.

2. FUTURE CHANGES IN ACCOUNTING POLICIES

Financial Instruments – Disclosure and Presentation

In June 2009, the AcSB adopted the IASB recommendations for enhancing disclosure to financial instruments. The amendments to Section 3862, *Financial Instruments – Disclosures*, provide enhanced and consistent disclosures about liquidity risk and fair value measurements. These amendments are effective for annual financial statements relating to fiscal years ending after September 30, 2009. Under the new requirements, the company intends to classify its investments as Level 1 fair value measurements.

3. INVESTMENT PORTFOLIO

The company accounts for its investment in Brookfield at fair market value, which is considered for these purposes to be the bid price on a recognized exchange, with any adjustments required being recorded as an unrealized appreciation (depreciation) in the Statements of Investment Operations and Retained Earnings.

On July 28, 2009, the company acquired 7.0 million Brookfield shares from BAM Investments Corp. for consideration of \$143.7 million, which represents the fair market value on the acquisition date.

The investment in the Brookfield shares, the associated cost amounts and the fair values as at September 30, 2009 and September 30, 2008 are as follows:

<i>thousands</i>	Number of Shares		Cost		Fair Value	
	2009	<i>2008</i>	2009	<i>2008</i>	2009	<i>2008</i>
Brookfield Class A Limited Voting Shares	53,161	<i>46,161</i>	\$ 715,234	<i>\$ 571,555</i>	\$ 1,295,525	<i>\$ 1,322,964</i>

4. PREFERRED SHARES

The company is authorized to issue an unlimited number of Class A, Class AA and Class AAA Preferred Shares.

As at September 30, 2009 the following Preferred Shares were issued and outstanding and have been included in liabilities, net of \$6.2 million (September 30, 2008 – \$3.8 million) of associated transaction costs which are amortized using the effective interest method of amortization.

	14,713,000	19,031,672	\$ 367,825,000	\$ 475,791,800

The fair values of the Class AA Series I, Series III and Series IV Preferred Shares based on quoted market prices as at September 30, 2009 were \$22.50 and \$19.51 and \$25.85 per share, respectively.

On July 9, 2009 the company issued \$125.0 million Class AA Series IV Preferred Shares and used the proceeds to fund the early redemption of the Class A Preferred Shares on July 27, 2009 and paid a \$1.2 million early redemption premium. In connection with the Class AA Series IV Preferred Share issuance, BAM Investments Corp. converted its \$112.7 million public and private Class A, Class AA Series I, Series II, Series III and Class AAA Series I Preferred Shares into Capital shares.

Holders of Class AA Series I, Series III, and Series IV Preferred Shares are entitled to receive cumulative quarterly dividends of \$0.309375, \$0.271900 and \$0.453125 per share respectively, payable on the 7th day of March, June, September and December in each year.

Retraction

Class AA Series I Preferred Shares may be surrendered for retraction at any time. The Class AA Series I Preferred Share Retraction Price will be equal to the lesser of (i) 95% of Net Asset Value per Unit; and (ii) \$25.00 less 5% of the Net Asset Value per Unit, in either case less \$1.00.

Class AA Series III Preferred shares may be surrendered for retraction at any time. The Class AA Series III Retraction Price will be equal to the lesser of (i) Net Asset Value per Unit, and (ii) \$25.00. Retraction consideration will be a number of Series I Debentures determined by dividing the Retraction Price by \$25.00.

The Series I Debentures will have a principal amount of \$25.00 per debenture and will mature on January 10, 2019. Holders of the Series I Debentures will be entitled to receive quarterly fixed interest payments at a rate of 4.45% per annum paid on or about the 7th day of March, June, September and December in each year. The Series I Debentures shall be redeemable by the Company at any time. The Series I debentures may not be retracted.

Class AA Series IV Preferred shares may be surrendered for retraction any time. The Class AA Series IV Retraction Price will be equal to the lesser of (i) Net Asset Value per Unit and (ii) \$25.00. Retraction consideration will be a number of Series II Debentures determined by dividing the holder's aggregate Preferred share Retraction Price by \$25.00.

The Series II Debentures will have a principal amount of \$25.00 per debenture and will mature on July 9, 2014. Holders of the Series II Debentures will be entitled to receive quarterly fixed interest payments at a rate of 7.35% per annum paid on or about the 7th day of March, June, September and December in each year. The Series II Debentures can be redeemed by the Company at any time. The Series II Debentures may not be retracted.

The "Net Asset Value per Unit" is defined as the fair value of the portfolio shares held by the company plus (minus) the amount by which the value of the other assets of the company exceed (are less than) the liabilities (including any extraordinary liabilities) of the company and the redemption value of the preferred shares, divided by the total number of Units outstanding. A "Unit" is considered to consist of one capital share and one preferred share of any class or series. For greater certainty, Class AA Series I, Series III and Series IV Preferred Shares will not be treated as liabilities for purposes of determining Net Asset Value per Unit.

Redemption

The Class AA Series I Preferred Shares may be redeemed by the company at any time prior to the redemption date for the Class AA Series I Preferred Shares at a price which until March 25, 2013 will equal \$26.00 per share plus accrued and unpaid dividends and which will decline by \$0.25 each year thereafter to be equal to \$25.00 on March 25, 2016 (the "Class AA Series I Redemption Date"). All Class AA Series I Preferred Shares outstanding on the Class AA Series I Redemption Date will be redeemed for a cash amount equal to the lesser of \$25.00 plus any accrued and unpaid dividends and the Net Asset Value per Unit. In addition, the company may redeem Class AA Series I Preferred Shares after March 25, 2009 but prior to the Class AA Redemption Date if the redemption of the then outstanding Class AA Series I Preferred Shares will occur using net proceeds from the issuance of Class AA Series I Preferred Shares or another class of preferred shares.

Class AA Series III Preferred Shares may be redeemed by the Company at any time on or after January 10, 2012 and prior to January 10, 2019 (the "Series III Redemption Date"). All Class AA Series III Preferred shares outstanding on the Class AA Series III Redemption Date will be redeemed for a cash amount equal to the lesser of \$25.00 plus any accrued and unpaid dividends, and the Net Asset Value per Unit. Notwithstanding the first sentence of this paragraph, the Company may redeem Class AA Series III Preferred Shares prior to January 10, 2012 for \$26.00 per share plus accrued and unpaid dividends if, and will not redeem Class AA Series III Preferred Shares prior to the Series III Redemption Date unless: (i) capital shares have been retracted; or (ii) there is a take-over bid for the Brookfield Shares and the Board of Directors of the company determines that such a bid is in the best interest of the holders of the capital shares. In addition, the company may redeem Class AA Series III Preferred Shares on or after January 10, 2012 but prior to the Class AA Series III Redemption Date if the redemption of the then outstanding Class AA Series III Preferred Shares will occur using net proceeds from the issuance of a new series or class of preferred shares.

Class AA Series IV Preferred Shares are mandatory redeemable on to July 9, 2014 (the "Series IV Redemption Date") for \$26.00 per share plus any accrued and unpaid dividends. The Series IV Preferred Shares may be redeemed prior to the Series IV redemption date if: (i) capital shares have been retracted; or (ii) there is a take-over bid for the Brookfield Shares and the Board of Directors of the company determines that such bid is in the best interest of the holders of the capital shares.

Holders of the preferred shares are not entitled to vote at meetings of shareholders of the company other than meetings of holders of the preferred shares.

5. CAPITAL SHARES

The company is authorized to issue an unlimited number of capital shares.

The issued and outstanding share capital as at September 30, 2009 and September 30, 2008 consists of:

	Issued and Outstanding			
	<i>2009</i>	<i>2008</i>	<i>2009</i>	<i>2008</i>
Capital shares	14,713,000	19,031,672	\$ 380,244,098	\$ 123,937,000
Class A Voting shares	100	100	100	100
			\$ 380,244,198	\$ 123,937,100

The company issued \$256.4 million capital shares as a result of the acquisition of 7.0 million Brookfield Shares and the conversion of certain preferred shares which were held by BAM Investments Corp. into capital shares. This was partially offset by the redemption of \$0.1 million of capital shares as a result of the retraction of the Class AA Series I Preferred Shares. On July 31, 2009, the company consolidated its capital shares on an approximate 2 for 1 basis to ensure that the number of preferred shares equals the number of capital shares outstanding.

Holders of capital shares are entitled to receive dividends as declared by the Board of Directors of the company. The Board of Directors of the company has indicated that its policy is to pay dividends, if and to the extent that the dividends received on the portfolio shares, less the administrative and operating expenses of the company, exceed the preferred share dividends. During 2009, the company declared and paid dividends in the amount of \$9.8 million (2008 – \$37.1 million) to its Capital shareholders.

If the company undertakes any future issuance of preferred shares, the articles of the company will be amended to either subdivide or consolidate, as applicable, such that the number of capital shares outstanding after such subdivision or consolidation would be equal to the number of preferred shares of all classes or series outstanding immediately after such issuance.

Capital shares may be surrendered for retraction at any time upon delivery of a retraction notice. The capital share retraction price is equal to the amount by which 95% of the Net Asset Value per Unit calculated as at the applicable valuation date, less \$1.00, exceeds the preferred share redemption price on such date.

If any capital shares are retracted, the company will, as necessary and subject to applicable laws, redeem or purchase for cancellation in the open market preferred shares in order to ensure that the number of preferred shares or any classes or series outstanding equals the number of capital shares outstanding.

Capital shares may be redeemed by the company at any time at a price equal to the amount, if any, by which the net asset value per Unit exceeds the preferred share redemption price of all outstanding classes and series.

Holders of the capital shares are not entitled to vote at meetings of shareholders of the company other than meetings of holders of the capital shares.

6. INCOME TAXES

The company qualifies and intends to continue to qualify as a mutual fund corporation under the Income Tax Act (Canada) (the "Act"), and is subject to tax in respect of its net realized capital gains. This tax is refundable in certain circumstances.

The company receives tax-free dividend income; consequently, the company has no net taxable income. However, the company is generally subject to a tax of 33-1/3% under Part IV of the Act on taxable dividends received. This tax is fully refundable upon payment of sufficient dividends.

As the company has the intention and ability to qualify as a mutual fund corporation and to manage its affairs in such a way as to transfer any liability to its shareholders, no provision for income tax has been made.

The company has \$4.2 million (2008 – \$1.3 million) of non-capital losses which expire in 2027 and 2028 and \$6.3 million (2008 – \$3.7 million) of undeducted share issue expenses available to offset taxable income, if any, in future years. The benefit of these losses and undeducted share issue expenses have not been recorded in these financial statements. The carrying value of the company's investment in Brookfield Shares exceeds its tax value by \$730 million (2008 – \$840 million).

7. MANAGEMENT FEES

The company's operations are managed by Brookfield, which is entitled to a fee of up to 10% of ordinary expenses of the company. For the year ended September 30, 2009, the company paid management fees of \$20,000 (2008 – \$20,000).

8. RISK MANAGEMENT

The company is exposed to the following risks as a result of holding financial instruments: foreign currency risk, market price risk, interest rate risk and credit risk.

Foreign Currency Risk

Brookfield declares dividends in U.S. dollars, which are then converted to Canadian dollars for distribution to Canadian shareholders, including the company. During the year ended September 30, 2009, a \$0.01 appreciation in the U.S. dollar relative to the Canadian dollar would have increased income available for distribution by \$0.3 million related to the Brookfield dividends.

Market Price Risk

The value of the Brookfield Shares is exposed to variability in fair value due to movements in equity prices. As a result, the fair value of the company's investment portfolio may vary from time to time. The company records these investments at market value. A \$1.00 increase or decrease in the market price will increase or decrease the carrying value of the investment in Brookfield by \$53.2 million, on a pre-tax basis and will increase or decrease the net assets value per unit by \$3.61.

Interest Rate Risk

The company's preferred shares are fixed rate and the company has negligible floating rate assets or liabilities. Accordingly, changes in the interest rates do not have an impact on income available for distribution.

Credit Risk

The company has no material counterparty risk as of September 30, 2009.

Liquidity Risk

The company's preferred shares expose the company to liquidity risk to fund dividend obligations. The company endeavors to maintain dividend income that exceeds the projected dividend obligations and expects to be able to continue to achieve this objective based on current circumstances. Management expects to fund any retraction obligations through a combination of ongoing cash flow, the proceeds from any new financing and proceeds from the sale of Brookfield Shares.

9. CAPITAL MANAGEMENT

The company's objective is to invest in Brookfield Shares that will generate cash dividends to fund fixed preferential cumulative quarterly dividends for the holders of the company's preferred shares and enable the holders of the company's capital shares to participate in any capital appreciation in the Brookfield Shares.

The capital base managed by the company consists of shareholders' equity with a carrying value of \$933.9 million at September 30, 2009, and \$367.8 million of retractable fixed rate preferred shares. During the period ended September 30, 2009, the company issued \$125.0 million Class A Series IV Preferred Shares and used the proceeds to fund the early redemption of the \$125.0 million Class A Preferred Shares. In addition, BAM Investments Corp. converted its publicly and privately held preferred shares into capital shares of the company and the company issued \$143.7 million of capital shares to acquire 7.0 million Brookfield Shares. The company has complied with all covenants, which are limited, and is subject to any externally imposed capital requirements.

10. OTHER

The company has a \$4.0 million credit facility with Brookfield. This facility is due on demand with interest at the prime rate. As at September 30, 2009 there was \$nil (2008 – \$nil) outstanding under this facility.

Included in accounts receivable is \$nil (2008 – \$1.7 million) due to a related party transaction.

The weighted average number of capital shares/Units outstanding during the year was 18.5 million.

Guarantees

In the normal course of operations, the company may execute agreements that provide for indemnification and guarantees to third parties. The nature of substantially all the indemnification undertakings precludes the possibility of making a reasonable estimate of the maximum potential amount that the company could be required to pay to third parties as the agreements often do not specify a maximum amount and the amounts are dependent upon the outcome of future contingent events, the nature and likelihood of which cannot be determined at this time. Historically the company has not made any significant payments under such indemnification agreements and guarantees.

11. RELATED PARTY TRANSACTIONS

In connection with the refinancing of the Class A Preferred Shares, BAM Investments Corp. and the company entered into two ancillary transactions. On July 28, 2009 BAM Investments Corp. converted its \$41.9 million publicly held and \$70.8 million privately held preferred shares into capital shares of the company. The transaction was recorded at the carrying value of the preferred shares.

Also on July 28, 2009, the company issued \$143.7 million of capital shares and used the proceeds to acquire 7.0 million Brookfield Shares from BAM Investments Corp. The transaction was measured at the fair value of the Brookfield Shares acquired, which was equivalent to their carrying value.
